

Construction Careers Week

24th -28th September

A week of talks, visits and technology for all schools
and colleges in Greater Manchester

Construction is responsible for:

Roads, houses, bridges, schools, airports, hospitals, parks and shops. And all the spaces in between

Almost 3 million jobs in the UK, and £28,000,000,000 of the UK economy

More than 100 types of roles and careers, from electrician to drone operator

Opportunities for desk-based careers, outdoor projects, teamwork and specialist disciplines

Construction Careers Week offers every student the chance to:

Visit live construction sites and see the future of the city being created before your eyes

Watch live digital broadcasts from the top of cranes and the bottom of tunnels, all in the comfort of your classroom

Meet industry experts at Bridgwater Hall on Tuesday 25th September to learn about current & future roles in construction, break down stereotypes and showcase live projects

Listen to presentations and talks from construction apprentices, graduates and senior staff during your school day

Take part in classroom challenges and competitions, pitting you against students from other schools

Join in CV workshops and mock interviews with local construction employers and specialist colleges

**Talk to your teacher about
booking activities and dates**
