

# VIRTUAL WORK EXPERIENCE

## "ADD YOUR DETAILS"

VIRTUAL WORK  
EXPERIENCE

Adding your details is perfect for small employers who rarely offer work experience placements. This option allows you to develop a pipeline of young advocates and champions for your business, and develop relationships with schools at your own pace.

When you add your details to the BESS Virtual Work Experience, students can find out all about you as soon as they have completed their task.

They can:

- Link straight to your company website
- Watch your organisation's videos
- Download information about your projects
- Read profiles of your core job roles
- Apply for apprenticeships, internships or real-world work experience with you
- Invite you to deliver careers activities for their school

All you need to do is complete a simple template with your information and we'll add it to the Virtual Work Experience. In no time you'll be found by students looking for local contacts and opportunities in construction.

Our Virtual Work Experience is promoted to a network of over 4,000 UK schools, responsible for more than 3 million pupils. Together, we can change perceptions of careers in construction and tackle the skills shortage.
